NEWEST BOOKS ADDED TO OUR COLLECTION

	<p>"A powerful illustrated history of the Great Migration and its sweeping impact on Black and American culture, from Reconstruction to the rise of hip hop. Over the course of six decades, an unprecedented wave of Black Americans left the South and spread across the nation in search of a better life--a migration that sparked stunning demographic and cultural changes in twentieth-century America. Through gripping and accessible historical narrative paired with illustrations, author and activist Blair Imani examines the largely overlooked impact of The Great Migration and how it affected--and continues to affect--Black identity and America as a whole. Making Our Way Home explores issues like voting rights, domestic terrorism, discrimination, and segregation alongside the flourishing of arts and culture, activism, and civil rights. Imani shows how these influences shaped America's workforce and wealth distribution by featuring the stories of notable people and events, relevant data, and family histories. The experiences of prominent figures such as James Baldwin, Fannie Lou Hamer, El Hajj Malik El Shabazz (Malcolm X), Ella Baker, and others are woven into the larger historical and cultural narratives of the Great Migration to create a truly singular record of this powerful journey"-</p>	<p>https://windsor.bibliocommons.com/item/show/883388017</p>
	<p>"A Black Women's History of the United States is a critical survey of black women's complicated legacy in America, as it takes into account their exploitation and victimization as well as their undeniable and substantial contributions to the country since its inception"</p>	<p>https://windsor.bibliocommons.com/item/show/886014017</p>
	<p>Despite increasingly liberal world views, black hair continues to be erased, appropriated, and stigmatized to the point of taboo. Through her personal and historical journey, Dabiri gleans insights into the way racism is coded in society's perception of black hair--and how it is often used as an avenue for discrimination. Dabiri takes us from pre-colonial Africa, through the Harlem Renaissance, and into today's Natural Hair Movement, exploring everything from women's solidarity and friendship, to the criminalization of dreadlocks, to the dubious provenance of Kim Kardashian's braids. Through the lens of hair texture, Dabiri leads us on a historical and cultural investigation of the global history of racism--and her own personal journey of self-love and finally, acceptance. Deeply researched and powerfully resonant, Twisted proves that far from being only hair, black hairstyling culture can be understood as an allegory for black oppression and, ultimately, liberation.</p>	<p>https://windsor.bibliocommons.com/item/show/878885017</p>
	<p>Alesia Montgomery's Greening the Black Urban Regime: The Culture and Commerce of Sustainability in Detroit tells the story of the struggle to shape green redevelopment in Detroit. Cultural workers, envisioning a green city crafted by direct democracy, had begun to draw idealistic young newcomers to Detroit's street art and gardens. Then a billionaire developer and private foundations hired international consultants to redesign downtown and to devise a city plan. Using the justice-speak of cultural workers, these consultants did innovative outreach, but they did not enable democratic deliberation. The Detroit Future City plan won awards, and the new green venues in the gentrified downtown have gotten good press. However, low-income black Detroiters have little ability to shape "greening" as uneven development unfolds and poverty persists. Based on years of fieldwork, Montgomery takes us into the city council chambers, nonprofit offices, gardens, churches, cafés, street parties, and public protests where the future of Detroit was imagined, debated, and dictated.</p>	<p>https://windsor.bibliocommons.com/item/show/885775017</p>
